Request for Requirements, ORR 11656

This Office requests the following information from the source:

1. Names and locations of plants producing radar equipment in Hungary or elsewhere in the Soviet Bloc, along with the types produced.
2. General description of radar sets produced.
3. Costs of any types of radar sets, if possible, broken down to material, labor and overhead.
4. Costs of any electronic items along with selling prices for the items, if possible.
5. Plant profit normally expected in the general field of electronic manufacturing and in specific areas of the electronics industry.
6. Number of employees in specific plants and in the electronics industry as a whole.
7. Production of electronic equipment in physical units and in terms of value.
8. Description of radio transmitters and receivers with which source is familiar, including names, code names or numbers if any, and operating characteristics.
9. Source's estimate of cost of each transmitter or receiver.
